Justrite Focus Range

Waste Disposal Cans

Almost every place of business has occasion to use flammable liquids such as fuels, chemicals, and solvents. Whereas these liquids are relatively commonplace, it's important to understand the dangers they may present. Safety containers protect workers by minimizing the risk of accidents and fires when handling hazardous liquids.

Cabinets

One of the leading causes of industrial fires is the improper storage and handling of flammable liquids. Safety cabinets help you safely store fuels, chemicals, and solvents to reduce the risk of fire and protect your people and property.

Secondary Spill Containment Cabinets

Hazardous leaks and spills are a relentless challenge. Slippery floors indoors can lead to a fall accident with associated costs and severe time lost. In addition to the damaging effects to our environment, EPA fines or contamination of our outdoors can be staggering. By using Justrite spill control products, accidents and costly fines can be easily avoided.

Emergency

In locations where a continuous supply of potable water is unavailable, this wall-mounted eye/face wash unit offers the solution to keep your workforce safe. The slimline 38-litre tank delivers a controlled flow of a minimum of 1.5 litres per minute of water for 15 minutes, meeting EN15154 and ANSI Z358.1-2014 requirements.
